

CONVERSATIONS  
presents

# STEP INTO YOUR POWER

An extraordinary day to find your power within  
presented by Barry Auchettl

Sunday 19 November 2006 Toronto

Are you looking for clarity and to create the life you truly desire?

Is it time to create patterns of behaviour that empower and support you?

Stepping into your power can take courage and an inner strength.

If you have the courage to step into your power, then life is there to not only support you, but to let you live your dream. You can transform your everyday life into one of exceptional value.

"Step Into Your Power" includes:

- \* Recognising that every situation occurs for a reason
- \* Taking personal responsibility for your actions
- \* Prosperity thinking to attract money, relationships and career
- \* Clarifying your life's purpose on all levels
- \* Trusting and acting on your own intuition

*"From the moment Step Into your Power started I knew that this course was going to be different from anything I had attended. Barry established a warm and relaxing atmosphere and from his opening statement the scene for an extraordinary day was set. Conversations is like no other game. Everyone is a winner. It frees your mind to speak truth, it creates clarity for the future and in an almost magical way empowers you to action your intent. I cannot emphasize enough how inspirational Step into your Power is. The only way to really understand is to play and experience for yourself the freedom and energy Conversations generates"* (Heather, New Zealand)

Using a revolutionary and innovative "workshop in a box" called Conversations you will receive simple and effective techniques to ignite your power within. The day will be facilitated by Australian Barry Auchettl, the creator of this phenomenal game. Barry is also a renowned world-wide facilitator, speaker and author. For more information, visit [www.conversationsthegame.com.au](http://www.conversationsthegame.com.au)

Investment: \$C200 including a copy of "Conversations: an inspiration game" valued at \$C110 in order to continue the process in the days and years to come.
